Departs 03/12/2013
2 Bed Inside
from \$1699 /person
Cruising on
mv Voyager

A combination of nature and culture make exploring the Amazon an unrivalled experience! Portuguese for reefs 'Recife' is a colourful opening on a voyage tracing the coastlines of Rio Grande do Norte and Ceará where the landscape is a montage of sweeping emerald forests, stunning turquoise waters and endless tropical white sand beach. The Amazon brings its own special canvas. So wide at first, the illusion is one of ocean and then vast swathes of rainforest etched with countless tributaries. There's much to discover in this enormous maze of natural diversity before Manaus, where more than 930 miles from its humble beginnings the mighty Amazon splits in two.
